SPORTS FACILITIES FOR EVACI 2013

For the Competition, EVACI 2013, will use different sports facilities:

- **Indoor events:** The [Anoeta Velodrome](#) will host the indoor events. This venue located in Donostia is a true point of reference for national sport that has witnessed many events throughout its long lifetime. It was constructed in the mid 1960’s as an stage for several finals of «La Vuelta a España». In the 1976 it was necessary to cover the venue because of the weather and this was the best opportunity to turn it into a place where, as well as cycling, athletics field events could also take place. From then, the Velodrome have hosted different European Championships (1977, EVACI 2003, WMA 2005) highlighting the participation of athletes like Sebastian Coe in 1977. The venue is also used for cultural events such as the Cinema Festival (Zinemaldia), music concerts and sport events.

- **Outdoor events:** The [Mini Anoeta Stadium](#) will host Outdoor Throwing competition and also will be used as a Warm Up Area for athletes.

**San Sebastian Hippodrome:** The Cross Country will be held in the San Sebastian Hippodrome Racecourse, an sport facility opened in 1916, 12km from the city center. The hippodrome has been staging the San Sebastian International Cross Country International for more than five decades.

- **TIC & Restaurant:** The TIC will be located in the J.A.Gasca Sports Center and the Restaurant in the Fronton Atano III, an original Pelota Court.
