⭐ Cultural and social activities
⭐ Excursions
⭐ Competition
POREČ
ABOUT THE CITY

Poreč is a town located in the heart of the western coast of Istria. A town of culture, tourism, sport and leisure, where the aromas and colours of past times form a mosaic of unforgettable experiences.

Traces of the past are preserved in the old part. The stone streets, the remains of ancient temples, forums and other beautiful buildings preserved from ancient times testify to the many rulers. The Euphrasian basilica from the 6th century is the most valuable cultural and historical monument in Istria, and on the UNESCO World Heritage List.

The silhouette of a city is visible in the geometrically symmetrical placement of the streets. The City of Poreč has preserved this appearance with the main streets Cardo Maximus and Decumanus as well as the centrally located Forum. Poreč was granted city or municipio status, during the first half of the 1st century and was granted the name Colonia Julia Parentium.

Today Poreč is an attractive tourist destination that pays great attention to tidiness, offers various events, accommodation facilities and activities. It also offers a diverse range of sports, from tennis, beach volleyball, soccer, horse riding, biking, hiking and other water sports that will enhance the holiday of any visitor.

Prices are indicated per person in chosen room type based on Half Board service; VAT included. Obligatory supplement of the city tax EUR 1,00 per person / night. Extra bed – on request.
A SELECTION OF EXCURSIONS AND THINGS TO SEE:

EUPHRASIAN BASILIC – POREĆ
The most valuable cultural monument in Porec, was built on the remains of an earlier tri-naval basilica, in the first half of the 6th century. It is possible to climb up to the steeple located in the old town Poreč. The complex of the Euphrasian Basilica represents a significant global monument acknowledged by UNESCO organisation in the year 1997.

CITY OF MOTOVUN
At the foot of the Motovun hill, the mythical Jason and the Argonauts sailed along the Mirna River, but the first inhabitants to leave traces populated this area in the period between 3,500 and 2,200 B.C. At the time of the Austro-Hungarian Monarchy this area was renowned for the growing of trees used in ship-building.

POSTOJNA CAVE (SLOVENIA)
Postojna Cave is the best-known cave in the world. It is also the greatest tourist attraction in Slovenia and one of the world’s largest karst monuments. Many books and other contributions have been written about Postojna Cave; speaking of tourist guides regarding the cave itself, almost 100 have been produced over 200 years.

LIM BAY
North of Rovinj, about a 20 minute car-ride away, one of the most beautiful natural resources of the Istrian peninsula, Lim Bay, is located, also known under the name of the Lim channel of the Lim flord.

ARENA AMFITEATER - PULA
The Arena is the only remaining Roman amphitheater to have four side towers and with all three Roman architectural orders entirely preserved. It is the sixth largest surviving Roman arena and a rare example, among the 200 Roman surviving amphitheatres, of unique technological solutions.

AGROTURISM PINETA
This large country house, once the property of the noble family Lazzarini from Labin, is noticeable as soon as your enter the small village of Sveti Martin. Restaurant, a wine cellar, a tasting room and a modern freshwater swimming pool is part of our offer.

BRIJUNI
The Brijuni island group that lies off the southwest coast of Istria in the vicinity of Pula, was once the meeting place of the European and world jet set. Each guest knows that on this small, yet unique area there is a chance to enjoy the simple and often forgotten charms of nature – clean air, crystal-clear sea and untouched Mediterranean vegetation.
