Ian Richards currently holds two M70 track walk world records (3000m, 5000m).

At EMAC in Veneto he felt in such good shape to break the world record in the 10km road race walk. Unfortunately the 10km course was shortened by about 600m (approx. 9.38km). Richards’ target time of 49:32 in the short road race walk would result in a time of less than 52 minutes when extrapolated to 10km. The world record 53:32 is held by Arthur Thomson, GBR
