

MARINA HOERNECKE-GIL - THE PASSION FOR ATHLETICS MASTER

To speak of Marina Hoernecke-Gil (Berlin, March 7, 1942) is to talk about Athletics, Sport, Delivery, Generosity, Altruism, Dedication, Hobby. It is to speak and not stop talking about this unique figure.

Born in Germany, educated in Spain, she has been a citizen of the world since she was very young.

Marina has demonstrated a sporting vocation, and skiing, handball, table tennis, skating, swimming and track and field and it has always had a place in her life. The same with regard to the languages she speaks: German, English, French, Italian, Spanish and Catalan, which made her work as a translator, as a speaker, as public relations, etc.

Following in the athletic / sporting field, but in the facet of leader, she worked in several aspects, being reference of Master Athletics in Spain (responsible for 25 years by the CA Lloret), European level (22 years like Secretary of the EMA) and worldwide (16 years as a WAVA / WMA Board Member and a member of the IAAF Veterans' Committee) for decades. She has always made her contribution in a disinterested and passionate way.

But its greatest achievement is immaterial, it is the affection that all demonstrate in the different institutions that it has passed through IAAF, WMA, EMA, C. A. Lloret among others. In the present times, there is so much unanimity when it comes to praising a person and this is only achieved having a soul as great as Marina has.
