

Updated layouting of European Records in EVAA Website

Giusy Lacava, Enrico Benes (Fidalservizi) with the help of Fernando Marquina (RFEA) have updated the "**data base**" of European Records and Best Performances with a new service easy to check out and print:

CR - Championships Record

Until now the **data base** of Championships Record is updated to which concerns the Indoor Championships Record in order to better prepare San Sebastian 2013.

As soon as possible will be updated Championships Records of EVACS and of EVACNS. When ready news appear.

Instructions of first use:

Search area (evidenced in red)

Activity

- If blank: it means you are searching "all the data of this activity"
- It is possible to search (clicking on the right) Outdoor, Indoor, Non stadia
- Outdoor and Indoor are connected below with the search on European Record
- Non stadia is connected below with the search on European Best performance

Event

- If blank: it means you are searching "all the data of this event"
- It is possible to search (clicking on the right) from the list of events (i.e.: with all the different weight, hurdles and so on)

Age Group

- If blank: it means you are searching "all the data of this age group"
- It is possible to search (clicking on the right) from the list of Age Groups (Male or Female)

Country

- If blank: it means you are searching "all the data" of all Countries
- It is possible to search (clicking on the right from the list of Countries) only one specific Country. In this case appear only the list of records of the specific Country requested

Type

- Connected with outdoor or indoor or non stadia
- It is possible to search (clicking on the right from the list of Type)
 - ER – European Record
 - EBP – European Best Performance
 - CR – Championships Record

In this case appear only the list of records of the specific type requested

Ordinamento

- Actually must be “by Event, Age group”; is prepared for future developments in “by name”

Search area (not evidenced in red)

Meet date

It will be possible to search the records only knowing the date, but not yet developed now; it will be available as soon as possible

Meet Location

It is possible to search the record knowing only the "location place" (the “meet location place” must be written correctly - i.e.: Zittau, Gent, Avellino or others).

In this case appear all the records broken in that meeting place

Name (of the athlete)

It is possible to search the record knowing only the "name of the athlete" (the “name” must be written correctly – i..e.: Mario Longo, Troy Douglas, Eduard Longauer)

In this case appear all the records broken by that name of athlete

Print

Page(s) could be printed as a normal PDF file from Windows or Mac.
