There was a question about the progression of the heights in the high jump in the older age groups. Giovanni will send the new schedule of the progressions to the TMs WhatsApp group.

Alan Bell: the problems with the cage for weight throw in Francavilla are solved (as a kind of compromise). Now it is preliminary safe. The program in Francavilla is as published.

For the relays: bibs with country names were not provided yesterday. For today and the next relay days they will be provided in the Call Room (maybe only for the last runner).

Estonia: the evening before the relays there were 5 teams on the list and the next day there were more. It was because of technical problems in the system.

Austria: will the composed teams be published? Yes: at the start, in the Call Room.

Giovanni welcomes Margit Jungmann (WMA President). She is happy to be here, and also to be present at the General Assembly. "She brought the sun back to Pescara."
