

## TEAM MANAGER MEETING MINUTES

**Friday 30th SEPTEMBER 2023**

**Opening:** by Giovanni Tracanelli: no written questions:

At the Race Walk, today, there will be no chemical toilets (because the course is so near the stadium). Tomorrow for the half Marathon there will be 4.

**Janusz Krynicki:** the competition is going smoothly now; er are satisfied with that.  
Janusz says: thanks to all Team Managers for their cooperation.

Great Britain: with a little help from us most of the problems were solved; it was a struggle for the organisation with such a big event. Most athletes are going home with a good feeling!

Franz Kropik (Austria) says: thank you to the organisation and EMA. They always kept smiling and took care that everybody had a good competition. A big 'THANK YOU' for all !

**Alan Bell:** he was asked for help for this competition, but he didn't know where he was getting into. He thanks especially two people: Giovanni Tracanelli and Janusz Krynicki who delivered a tremendous performance, with the help of the Italian judges, who delivered 'athletics', in this big competition!

Yesterday there was an emergency with a French long jumper, who had a big heart problem. He was brought to the ambulance; there was no doctor, but they brought him immediately to the hospital, where he had surgery.

France: happily it was on time; thanks to the Red Cross people.

For the next championships/events, it is very important to have a doctor at the venue!

Alan: yesterday we finished the provisional timetable for Gothenburg; it will be published on the website. Every 6 weeks there will be a site visit to Gothenburg from now on.

**No Team Managers Meeting on the last day (Sunday 1 October)**
